Discover your **PERFECT HAVEN**

Let's put this out there right now: Our residential communities are *on point*. State-of-the-art housing facilities on both campuses and caring staff who provide a supportive environment are central to your on-campus residential living experience. But that's just the beginning of what you'll gain living on campus.

Our residential communities on each campus are an easy walk to your classes, the library, the recreation center, and places to eat. It's everything you need to be successful - friends, support system, academics, fun. Our student residents find the question isn't "Is living on campus right for me?" it's "When can I move in?"

Check out our residential communities highlighted in the next several pages to learn which one is a good fit for you.

Your safety is our top priority!

Our housing facilities are equipped with state-of-the-art security systems, and the lobby of each hall has a desk staffed 24/7 to ensure a secure living environment for all residents. Each unit is also equipped with an emergency call button that a student can press to have a direct line to on-campus dispatch.
